

## **Z-SYSTEMS CERAMIC IMPLANTS ANNOUNCES DONATION TO RED CROSS TO SUPPORT HURRICANE RELIEF**

BOSTON, Mass. – November 29, 2017 -- Z-Systems Ceramic Implants, the world's leading manufacturer of innovative, metal-free zirconia dental implants, is pleased to announce a #GivingTuesday donation to the Red Cross in the amount of \$7,700.

Victims of hurricanes Harvey, Irma and Maria, the historic back-to-back storms that ravaged Texas, the Caribbean / Florida and Puerto Rico, are still in temporary housing and working to rebuild their lives and communities. People who lost their homes in the California wildfires are also still recovering. These families will also need help with holiday shopping as the Red Cross stated in its "Give Something That Means Something" appeal. In September, Z-Systems management committed to donating to areas impacted by the natural disasters.

"We are grateful for our success and feel it is important to give back to the communities that have supported our growth and contributed to that success. We are pleased to announce this donation at this time to help brighten the holidays – and some spirits – this year," said Z-Systems CEO Rubino Di Girolamo. "We know the Red Cross donated unprecedented amounts of food, time and resources after the natural disasters this past fall and it's nice to know that our customers, through their purchases, contributed to helping others and that we can make this donation in time for the holidays."

Headquartered in Switzerland with Boston area US offices, Z-Systems Ceramic Dental Implants is the world leader in Ceramic Dental Implants. Z-Systems offers the only 1-piece, 2-piece, & tapered all-Ceramic Dental Implants, completely metal & plastic free.
